

Module 2

Check your Knowledge!

IT-Environments

1. Think of a few IT-Environments that you use every day. Where do you encounter them? How do you use them?
2. What components do these environments have? How many people use it?
3. Do you have a WiFi password? Do you know your WiFi password? How complicated is it?
4. How often do you change your WiFi password?

ISERink Questions

5. In your own words, provide a definition of ISERink and ISEAGE.

6. In your own words describe how ISERink and ISEAGE are interconnected.

7. Why is there a virtual “barrier” blocking almost all outgoing traffic from ISELab out to the rest of the internet?

Note:

There is a lot more we could cover regarding ISELab, but that is enough for now. We will learn more as we move forward.
