

Practice CDC

Module 15 | Stage 2

Introduction

Welcome to Stage 2 of the Practice CDC! I hope you are all excited to get started and to have some fun! This stage can last 2 week or as long as you please. During this stage, both teams will be working as Red and BLue Teams. Each team will be competing against each other to try and capture each other's flags, but also protect your own machines turning the processes.

As a word of advice, make sure to assign roles to each team member to make sure your machine stays protected throughout the battle.

REMEMBER IT IS NOT ABOUT WINNING BUT ABOUT HAVING FUN!!

You can keep track of the flags your team captures below.

Flag Number	Flag Location	Pointed Earned
